Entertainment &

Arctic Disco Igloo Events

NDE has broadened our services once again
with our newly acquired
business called Arctic Disco Igloo events

Combining forces to bring you

even more

spectacular events

Next Dimension Entertainment has firmly cemented itself in the Wedding and events industry now going into our 9th year of events. We specialize in Boutique events from 50 pax to 1000 pax from Weddings to mini festivals, gala evenings and cocktail affairs, NDE are capable of creating absolute magic for our clients, using the latest technologies, special fx, and attention to detail to make our company stand out above the rest.

Cue the music, roll the cameras,

**Pappas got a
brand new bag**

Arctic Disco Igloo events is our new versatile mobile pop-up event space that will light up any event or function with its unique charm and much loved Arctic theme.

Let's talk Capacity

MAIN IGLOO

12 meters has an up to
160 person capacity

ADJOINING

8m igloo with
a capacity for up to 60

The **main Igloo(12 meters)** has an up to **160 person capacity** with **95 square meters** of floor space and is a fully **inflatable waterproof dome** tent made from fire retardant white PVC Vinyl with a **honeycomb ice-brick like effect** replicating a huge 12m Igloo. The igloo can be **inflated and deflated in the space of a few hours**. Along with the 12m igloo we have an **adjoining 8m igloo with a capacity for up to 60 persons and 35 square meters** of space with a **2m joining tunnel**. Together making up an event space for approximately **220 persons in total** for a dance or cocktail event.

**180 PEOPLE
3x2m STAGE**

**128 SEATS
3x2m STAGE**

Why choose **Igloo**?

Flexible Location

Our igloos are portable, so you choose the location which gives you complete flexibility.

One-stop supplier

We are your one-stop supplier shop or you pick and choose which bits we'll help you out with. It's easy for us to bring across our trusted caterers, bar staff, DJs or whatever else you might need, because our team bring the gear anyway – making planning that bit smoother for you. Even better, our options could help you cut your costs as you're not tied to any one supplier.

Stand out

There aren't many venues or marquees that actually get guests gasping, Igloo Discos actually make jaws drop. To achieve this in a traditional venue you'd need to hire something like Constantia Mansion, which is probably slightly out of budget...

It's all about Entertainment

High End Sound & lighting, DJ equipment, staging, Special FX, Bistro and Decorative lighting, Smoke and Snow machines, Dance floors and Event flooring and so much more is also available to hire if needed for your party space. The walls of our inflatable domes are 750mm metre thick and filled with air providing a cushion to stop sound escaping from the dome – perfect if you need to keep your sound levels low as opposed to standard marquees that provide no barrier for sound travel.

Arctic Theme?

We can also provide you with a full Arctic themed performance team consisting of dancing penguins, polar bears and snow themed decor and more to ensure the best and most complete Arctic Disco experience for all your guests.

Standout Destination

The Arctic Disco is a standout destination at any event that attracts plenty of passing visitors and proves a great talking point way beyond the end of your party. It is highly visible and provides hours of boutique fun and can also be fully branded for any corporate event. Arctic Disco is perfect for a wide range of public and private events from music festivals to birthdays, VIP arenas to chill out rooms, as well as providing the opportunity to add a unique and intimate music arena to any event you may be having, indoors or out.

The Arctic Disco is an
ideal venue for:

A music arena

Birthday parties

Wedding receptions

Engagement parties

Matric farewell

VIP area / bar

Chill out room

Food stall/restaurant

An art gallery

Stand-up comedy store

Ice bar

A unique space for any celebration

Setting the ambience

There is no single way to set the perfect ambience at your event but there are several easy ways to ruin it. The ambience is the essence of the event, it's the experience itself, it determines how people feel and how likely they are to enjoy themselves.

When deciding what you need to set the ambience for your event consider your audience and the type of event you are holding, this will help you easily identify 'must haves' and 'mustn't haves'. Understanding your audience is the best way to understand what they will enjoy.

If you're unsure look at photos and videos of other similar events and take inspiration from how they set the ambience.

Your budget should be planned accordingly to set the ambience and a pros and cons list created for each item; not having a DJ and using an i-Pad will save some money but when the i-Pad cuts out and silence dawns on the event the ambience will be lost and the talking point of the event will be the loss of sound; on the flip side an ice sculpture might make a great set piece but will cost a lot and unlikemusic no one will miss it if it's not there.

Remember to also consider inbuilt venue/structure features when planning your budget as paying a little more for your venue/structure may save you paying for those little ambience setting touches closer to the event.

Facilities & Services

Don't forget you're not just arranging a party you are hosting and responsible for your guests (and the impact they have on any neighbors) for the duration of the event.

Make sure you have considered toilets, car parking and transport, cloakrooms, food and drinks.

Poor event facilities can have a major impact on the overall opinion of an attendee and spoil even the best events.
